Reformatting the User Story format

As a (role, persona)
I want (what will the feature do)
So that (benefit/value)

We will (benefit/value)
For our (role, persona)
Because we have (what will the feature do)

As a user, I want to be able to make changes to my calendar and search without having to type on my iPhone, because it saves me time and hassle

We will save time and hassle, and increase safety for our users, because we have an intelligent personal assistant" that can make changes to calendars and search using a natural language user interface.
